Summary

Frontend Developer with 3+ years of experience building responsive web applications using React.js, Next.js, and Angular. Skilled in creating user-friendly interfaces and integrating RESTful APIs. Familiar with PHP, Laravel, and MySQL. Strong collaborator committed to writing clean, maintainable code, improving technical skills, and staying up to date with modern web technologies.

Education

Bachelor of technology and information systems, Port Said University **2019 - 2023**

- Cumulative Grade (GPA): 3.20 — Very Good with Honors

Information Technology Institute (ITI) – Full Stack PHP Diploma **Jan 2024 - May 2024**

Work Experience

➢ **Frontend Developer | AIM United Company Ltd** **May 2025 - Present**

- Developed SaaS applications and dashboards using React and Next.js, improving scalability and performance.
- Worked on internal company self-projects, improving legacy code structure and implementing new features.
- Collaborated closely with backend engineers to develop and integrate scalable solutions, translating business requirements into production-ready solutions.
- Built a task management system similar to **ClickUp** for task tracking, workflows, and team collaboration, increasing productivity by up to 85%.

➢ **Frontend Developer | Rukn IT** **May 2024 - Nov 2024**

- Contributed to building an educational platform using Next.js, applying Clean Architecture principles.
- Implemented reusable presentational and container components to improve scalability and maintainability.

➢ **Frontend Developer Upwork | Freelancer** **Aug 2021 - Present**

- Converted Figma designs into responsive web applications using HTML5, Tailwind CSS, JavaScript, React.js.
- Delivered multiple client projects, ensuring responsive design, cross-browser compatibility and performance.

Technical Skills

Frontend:	• HTML5	• **CSS3**	• SASS	• Bootstrap5
	• Tailwind CSS	• Material UI	• Shadcn UI	• JavaScript
	• jQuery	• React.js	• RTK Query	• React Query
	• TypeScript	• Next.js	• Angular	• Chart.js
	• I18Next	• Framer Motion	• Formik & Yup	• React-hook-form & Zod
Backend:	• PHP	• Laravel	• Node.js	• React Native
	• MySQL	• Strapi CMS	• Firebase	• Supabase
Tools:	• Git & GitHub	• GitHub Actions	• Postman	• Docker
Testing:	• Jest	• React Testing Library		

Projects

- **Graduation Project: Arduino Measure Diabetes**
  Grade: **A+**
  Description: A device with a sensor inserted into the patient's arm for 14 days to monitor glucose levels and transmit readings via Bluetooth to a mobile application for real-time blood sugar tracking.
  - **Front-End UI:** HTML5, CSS3, Bootstrap5, JavaScript and React
  - **Measure Diabetes Website**: Demo

- **MEDIntell SaaS App:** Demo — **Next.js – REST APIs**
  Healthcare SaaS App designed to analyze patient disease, track health trends and generate medical reports It helps healthcare providers make informed decisions through clear insights and organized reporting.
  Technologies: HTML - CSS - Tailwind – JavaScript - Next.js - Redux Toolkit Query – TUS Server.

- **Courses Tech App:** Demo — **Next.js – Strapi CMS**
  A learning platform designed for seamless educational experiences, built with Next.js and Strapi for content management, authentication by Clerk, and payment integration with Stripe.
  Technologies: HTML - CSS - Tailwind - JavaScript - Next.js - Strapi - Clerk - Stripe - Cloudinary.

- **Al-Jwar Agency Website:** Demo — **Next.js – Laravel**
  Developed a multilingual travel agency website using Next.js and Laravel, featuring hotels, tours, flights, transfers, and visa services. Built a scalable, responsive frontend with RESTful API integration, booking workflows, and an admin dashboard, supporting Arabic, English, and Spanish.
  Technologies: JavaScript – Next.js – React.js – Tailwind CSS – Laravel – RESTful APIs – i18Next

- **Dr-Samkari Website:** Demo — **Next.js – REST APIs**
  Healthcare website providing medical consultations, healthcare services, and appointment booking.
  Technologies: HTML - CSS - JavaScript – Shadcn UI - Next.js - Axios - Payment Integration.

- **Job Portal Platform:** Code — **PHP – My SQL**
  a web-based job portal application developed to streamline the hiring process for organizations. This platform enables companies to post job openings and manage candidate applications
  Technologies: HTML - CSS - JavaScript - PHP - MySQL

- **E-commerce-ABrand:** Demo | Admin Dashboard: Demo — **React.js – Firebase**
  Responsive e-commerce website with a smooth shopping experience for electronics, books, and clothing.
  Technologies: HTML - CSS - TypeScript - Material UI - React.js - Redux Toolkit - Firebase - Stripe.

- **E-commerce App:** Demo — **Angular**
  e-commerce website using Angular with user authentication and lazy Loading for optimized performance and the application uses local storage, ensuring a seamless shopping experience.
  Technologies: HTML - CSS – Bootstrap -JavaScript - Angular- REST API.

Personal Skills

- **Good organizational, interpersonal and Communication skills**
- **Adaptability to learning new tools and technologies**
- **High flexibility in thinking and operating style**
- **Time management skills**
- **Problem Solving**
- **Self-study**

Languages

- **Arabic** — **mother tongue**
- **English** — **conversational**
